

Boys' and Girls' Club Corner

By Mrs. Edna Home Durand
County Club Leader

Curry County Boys and Girls: The Club books close July 1st. If you have been planning to enroll or if you have enrolled and have not been able to continue the work write to the County Club Agent before June 30th.

Club Leaders: If there are any in your group who will not be able to complete the work this year, please notify the Club Agent at once so that the enrollment lists may be revised accordingly.

Other Counties.

Bernalillo—Eight boys are competing for the \$100 in Prizes given by the Albuquerque Morning Journal for the best garden.

The sewing clubs are organized at Armijo and Barton.

Colfax—Mr. John H. Porter has been appointed as County Club Agent. Mr. Porter resigned as a county superintendent in an Oklahoma county to take up this work and his ability to meet and work with the rural youth especially qualifies him for the

work. He has enrolled 100 members and opened the work in seven communities.

McKinley—Pure-bred calf and pig clubs have been organized.

Quay—At Lloyd the cooking club served 84 dishes of lunch to 34 members at 5c per dish.

San Juan—Twelve boys and girls have formed a pig club. The members are raising the pigs on shares.

Union—One community held a meeting for making organdy hats. Seven hats were cut out and almost finished.

Thirty-one rag rugs were woven in May.

Mr. E. L. Kempf, vice president of the Local Leader Association, was an office caller Saturday.

Josie and Nettie Sherwood of the Shiloh group have made very attractive sewing baskets. The foundation is a fruit basket (the two-quart size) velvet and pink and blue silk crepe. Little pockets on the inside for tape measure, thimble, etc., and a black velvet strap for arm band, completes a work basket that any girl should be able to copy with good results.

Misses Elva and Pearl Simpson called at the office Saturday in company with their father. They reported the arrival of sixteen well-bred youngsters in their pig family. Their gilts were brought in from Texas last year and while Pearl was not old enough to complete in club work, she learned to keep her record and care for her pig, and is a member of the breeder's class this year.

The meeting at Hayener Thursday was well attended. Everyone in the group is very interested and working hard to make their first year really count for club effort.

Laura Winn was elected chairman to conduct general club meetings and at each meeting part of the time will be devoted to parliamentary practice.

The boys held a special session at the home of Leland and Dwight Hurley Saturday afternoon at 3:00 for the purpose of going over the records and studying business methods.

All but one were present at the Locust Grove meeting Friday. There are enough members in the cooking club to make it standard. Miss Mildred Hagler has consented to supervise the work of this group and all are very interested. The cooking club will meet the 24th and both clubs will cook.

Arthur Wade of Locust Grove poultry club read his records for May. Arthur and his chickens are all doing good club work.

Garden members—Watch for cabbage beetle. He is very fond of mustard, radishes, etc. Begin early with a spray of either of the following:

Arsenate of lead paste.....1 pound
Fish oil soap (as a sticker).....1 pound
and water.....10 gallons
or
Powdered lead arsenate.....2½ pounds

Water.....50 gallons
Soap.....1 pound

Get the under side of the leaves as well coated as possible. A sprayer with elbow extension will help to reach all parts of the plant.

J. M. Hagler, Leonard Johnson and Howard LaDuke will study the stock judging with the idea of competing this fall. Mrs. LaDuke will assist the team and conduct the classes.

The Local Leader reports are due in the office June 25th. If you do not have a blank form send in the number of members you have enrolled, the number working and the meetings held in June.

Mr. Campbell's son is here visiting

The man who waits for building material demand to slacken, for prices to recede, will lose much in profits and possibly pay even more in the end.

There is profit in building. Otherwise people would not build. With all prices high the profit remains. Why wait?

It is our earnest advise that you build now—that you come to us for your estimates.
